March 23, 1974

DEED OF GIFT

To Commodore Robert Cramer and 15 Meter Fleet Captain R. G. Van Warner.

Sirs:

The efforts of your organization have been brought to our attention, to bring the 15 Meter Ice Yacht back into prominence in the sport of ice boating.

Even though it is our goal and effort in the chemical industry to work in and for the future, we firmly believe there is and should definitely be room in our daily lives to see and enjoy our past in all walks of life, including the sporting world.

We of Pan American Chemical Corporation would like very much to play a part in this effort.

At the conclusion of several meetings with your representative Gary Budzinski, we of Pan American would like to offer this trophy to the 15 Meter Association with the assurance of a long span of smooth sailing and great races; may good sportsmanship prevail throughout your future years.

Congratulations on your 54th year. To all members, keep your strength and head for 100. What a thrill it would be to attend a 100 year celebration of a sporting organization. Very few organizations have this opportunity. We of Pan American hope and pray for the Toledo Ice Yacht Clubs success in this goal.

With best regards,

Don Sorter
Charles Oswald
